## Video Surveillance Systems

CSRA Technology specializes in digital security surveillance technology. We provide integrated Video Surveillance Systems that include Digital Video Recorders, Power Supplies, CCTV Cameras, software, mounts and cables.

We deliver fully functional systems that can be accessed via the internet for monitoring anywhere in the world. Our systems offer measurable value and reduce business risk. Our focus guarantees that you get consultants capable of understanding and addressing your needs. All of our solutions are designed to reduce support costs as well as improve the availability and security of your system. Our service provides;

1. Site Survey - Planning and Layout
2. Discuss the customer's needs and wants.
3. Camera Selection.
4. DVR Selection
5. Integration and testing of the system prior to installation or shipping.
6. Follow on tech support based on customers needs.

CSRA Technology can design a custom system for your particular needs. Please contact us at (706) 592-1522
